10	2.4.7	Swagger UI input focus suppressed with <code>!important</code>	serious	1 page	Replaced <code>outline:none</code> <code>!important</code> with <code>outline:2px solid var(--cyan) !important</code>

Commits

- `08e76de` — fix(a11y): WCAG 2.1 AA fixes from pa11y audit (skip links, main, headings, focus, SVG ARIA)
- `fadf8b4` — fix(a11y): add underline to in-text links for WCAG 1.4.1 compliance

Residual / Out-of-Scope

- Color contrast of `--cyan2` (#29B6F6) on navy backgrounds may be borderline at small text sizes — full APCA analysis recommended
- Video/audio content: none present, no captions needed
- PDF documents in `_SUBMISSION_BUNDLE`: not audited (outside scope)
